

Outdoor Education

Do you want to experience the outdoors?

Is camping something you love to do?

Students have the opportunity to experience personal growth and develop social skills and self-confidence. Students will evaluate and reflect on the way that they have progressed through the practical outdoor skills and their collaborative and leadership skills.

SACE Credits

20 credits

Assessment

About natural environments
Experiences in natural environments
Connections with natural environment

Subject Length

Full year

Prerequisites

N/A

Additional Information

Due to the nature of the subject, students will be required to participate and engage in 2 camps. Camps relate to AT2 "Experiences in Natural Environment" assessment task and therefore attendance at camps is compulsory.
