

# Activating Identities and Futures (AIF)

---

**Do you want to conduct a project?**

**Do you want to know how to research?**

## **SACE Credits**

10 Credits

## **Assessment**

Some variations may occur in 2022

Outcome

Review (A)/Evaluation (B)

## **Subject Length**

Full year

## **Prerequisites**

N/A

## **Additional Information**

This subject needs to be completed as one of the compulsory requirements of the SACE. Activating Identities and Futures is undertaken at stage 1. Activating Identities and Futures can both be used in a student's ATAR. Activating Identities and Futures includes an external review whilst Activating Identities and Futures includes an external evaluation.

### **NOTE:**

In consultation with schools, SACE is currently undergoing a project to revitalise AIF. The subject will continue to be compulsory at stage 2. However, in addition to the existing AIF and AIF there will be two other strands, one Vocational and one Entrepreneurial. The Assessment Criteria (AC) and the scope of the subject may change; however, AC will be common for all four Activating Identities and Futures strands.

In 2022, students will be offered the option to complete the current or the new AIF curriculum.

Whyalla Secondary College teachers are involved in the project and will support you to be highly successful.
