

# Aquaculture/Horticulture

---

***Do you want to learn about the environment?***

***Do you want to work with marine life?***

Students have the opportunity to conduct their own project or investigation into a suitable freshwater species. Typical projects have included: fish breeding, crustacean breeding, plant propagation and displaying of native species, and maintaining the breeding programme. Students will also develop their knowledge of nutrient recycling and its implications in managing fish. Students will spend time gaining a better understanding of marine aquaculture enterprises in South Australia as well as the biology of selected species.

**SACE Credits**

20 credits

**Assessment**

Practical  
Theory

**Subject Length**

Full year

**Prerequisites**

N/A
