

Health Science

Do you want to focus on the Human Anatomy?

Do you want to be a physiotherapist?

Students gain knowledge in focus areas of Human Anatomy and Physiology, Psychology and Healthcare (Diet and Nutrition) along with career development to support them in their progression to pursue a career within the health industry. This course includes working with students and staff from UniSA that will allow access to the clinics for performance testing.

Selected clinics align to the students' pathway, including Dietetics, Exercise Physiology, High Performance, Occupational Therapy, Physiotherapy, Podiatry and Psychology.

This subject ensures to provide the learning required for tertiary degrees, such as Bachelor of Health Science, Bachelor of Human Movement, Exercise Sport Science and Bachelor of Clinical Exercise Physiology, offered via UniSA.
