

The Arts – Visual Arts

Do you like creating art and learning about what makes art design interesting?

Do you want to develop your creative skills?

Students are introduced to the basic skills and processes of art making and creating. These include being taught skills in observational drawing, line design, painting techniques and creative projects, which includes developing thinking strategies to create individualised art pieces.

Two or three media options will be offered (e.g. watercolour, pastel, ink, pencil). Students are encouraged to express their individual style in their art works. Students are involved in projects designed to appreciate works of visual art, artists and their cultures. This includes considering ideas in artworks by Aboriginal and Torres Strait Islander artists. Students then represent a theme, concept or idea in their artwork.

This course gives students the fundamental skills to continue on a creative learning path.

Assessment

Students are assessed on the making of, and responding to, artworks with a focus on developing their skills, knowledge and understanding.
