 **STEP 2 Challenge of practice**

Challenge of Practice:
If we have a consistent approach to reading for meaning to increase surface to deeper learning in the middle years by using **Before, During and After (BDA) strategies that elicit questioning, reflection and deeper thinking**, then we will increase the number of students achieving in SEA and the higher bands in reading.

 **STEP 3 Plan actions for improvement**

<p>Student Success Criteria (what students know, do, and understand): We will see each student be able to:</p> <ul style="list-style-type: none"> analyse, infer, evaluate and comprehend subject texts to a deeper level of understanding and provide written samples of their learning are able to independently apply reading strategies to demonstrate existing knowledge, comprehension and analysis of texts 	<p>How and when will this be monitored, tracked and measured?</p> <p>This will be measured through lesson observations across all learning area shows student demonstration of using these range of strategies during lesson. Students have shown increased ability to interpret and analyse texts. Term Plans, co-teaching collaborative documents, and Learning Area Leader feedback on planning documents will provide this evidence.</p> <p>As part of our professional development in 2023, our WSC Professional Learning Calendar each term will be dedicated to sessions to build knowledge reading strategies to support comprehension skill development. Learning Activities designed within all learning areas will show increase in student understanding and use of process of before, during and after reading text approaches Teachers will also engage in professional learning that develops knowledge in differentiated learning approaches and use of reading data to assess where students are at and what their next steps are .</p> <p>As a SIP team, we will work together to track our progress using a traffic light system every 5 weeks.</p>
