If we have a consistent approach to reading for meaning to increase surface to deeper learning in the middle years by using Before, During and After (BDA) strategies that elicit questioning, reflection and deeper thinking, then we will increase the number of students achieving in SEA and the higher bands in reading.

- We will see each student be able to:
- analyse, infer, evaluate and comprehend subject texts to a deeper level of understanding and provide written samples of their learning
  - are able to independently apply reading strategies to demonstrate existing knowledge, comprehension and analysis of texts
