

# ACEE

Automotive, Construction, Electrotechnology, Engineering

ACEE is a specialised Industry Pathways Program (IPP) tailored for students interested in pursuing careers in the following fields:

- **Automotive:** Light Vehicle and Diesel
- **Construction:** Building, Carpentry, Cabinet Making, and Bricklaying
- **Civil Construction:** Mining, Mineral Exploration, Drilling, and Construction
- **Electrotechnology:** Electrician
- **Engineering:** Boiler Making, Fitting & Turning, and Metal Fabrication

This hands-on program equips students with practical skills, real-world experience, and industry-relevant knowledge to enhance their chances of gaining employment or a School-Based Apprenticeship.

Learning is delivered through a project-based approach, with students actively participating in community projects and industry work placements.

### Entry requirements:

- C grade or above in year 10 EIF (Exploring Identities and Futures), English and Maths
- C grade average in subjects
- 80% attendance
- Positive behaviour for learning within school
- Successful participation in the VETRO (VET Readiness Orientation)
- Evidence of Industry Immersion exploring the identified pathway
- Signing of the Code of Conduct
- Completion of enrolment forms
- Participate in interview application process

*Entry requirements at the discretion of the college*

### SACE/ATAR attainment:

Estimated 50 credits at SACE Stage 1.

This IPP course cannot be used to gain an ATAR.

**Anticipated VET duration:** 12 months
